OBJECTIVE

Motivated Electronics Communication Engineering graduate with a strong interest in software development, programming, and emerging technologies. Proficient in Python, C, C++, Java, and CSS, with an interest in blockchain and decentralized technologies. Currently pursuing a PG Diploma in Blockchain, expected to be completed in September 2027. Seeking an entry-level opportunity to apply technical knowledge, develop practical solutions, and grow as a software and technology professional.

EDUCATION

Post Graduate Diploma in Blockchain, Digital University Kerala — Expected September 2027

Bachelor of Technology – Electronics And Communication Engineering, NIT Calicut — 2021 - 2025

SKILLS

Programming Languages:	Python, C, C++, Java
Web Technologies:	HTML, CSS
Blockchain:	Blockchain fundamentals, decentralized systems, smart contract fundamentals
Tools:	GitHub, VS Code, LTspice
Core ECE:	IOT,Digital Electronics, Communication Systems, Microprocessors ,Microcontrollers

PROJECTS

Python/C++ Programming Project.

• Developed a programming project using Python/C++ to solve a practical problem through structured programming and problem-solving techniques.

• Implemented core programming concepts including functions, data structures, file handling, and error handling.

ECE Projects.

• Designed and implemented an ECE-based project involving hardware/software integration

•Water Level Indicator circuit

• Deep Learning Algorithm For Angle Estimation.

EXTRA-CURRICULAR ACTIVITIES

- Continuously developing programming skills through practical projects and technical learning.
- Exploring blockchain, software development, and emerging technologies alongside an ECE background.
- Participating in technical learning activities, projects, and online courses to strengthen practical skills.
